## Hard Disk as Map

A hard disk is really a Map from Long to File.

## Hard Disk as Map

A hard disk is really a Map from Long to File.

- ▶ Disk files are one or more *blocks*.

## Hard Disk as Map

A hard disk is really a Map from Long to File.

- ▶ Disk files are one or more *blocks*.
- ▶ Disk controller takes block *index*.

## Hard Disk as Map

A hard disk is really a Map from Long to File.

- ▶ Disk files are one or more *blocks*.
- ▶ Disk controller takes block *index*.
- ▶ Moves read head to correct track.

## Hard Disk as Map

A hard disk is really a Map from Long to File.

- ▶ Disk files are one or more *blocks*.
- ▶ Disk controller takes block *index*.
- ▶ Moves read head to correct track.
- ▶ Waits for disk to rotate to beginning of file.

## Hard Disk as Map

A hard disk is really a Map from Long to File.

- ▶ Disk files are one or more *blocks*.
- ▶ Disk controller takes block *index*.
- ▶ Moves read head to correct track.
- ▶ Waits for disk to rotate to beginning of file.
- ▶ In about one millisecond.

## Hard Disk as Map

A hard disk is really a Map from Long to File.

- ▶ Disk files are one or more *blocks*.
- ▶ Disk controller takes block *index*.
- ▶ Moves read head to correct track.
- ▶ Waits for disk to rotate to beginning of file.
- ▶ In about one millisecond.
- ▶ Read or writes file.
